

# FAMILY CARER WORKSHOP 2013

## UNDERSTAND ALZHEIMER'S EDUCATE AUSTRALIA

# RELATE, MOTIVATE, APPRECIATE: promoting positive interactions with people living with dementia

Developed by Dr. Cameron Camp this workshop is aimed at family carers and will give carers the knowledge to enable persons living with dementia to be engaged in meaningful activity throughout the day. The workshop participants will receive the recently launched resource RELATE, MOTIVATE, APPRECIATE: Montessori Resource. The day will begin with an overview of applying the Montessori principles followed by a hands-on experience to create activities and implement them.

### Dr Cameron Camp PhD

*Director of Research, Center for Applied Research in Dementia, Ohio USA*

Dr Camp is an internationally-known research scientist in the field of ageing. He holds workshops on designing cognitive and behavioural interventions for dementia internationally. His current research involves the use of Montessori-based activities as rehabilitative interventions to enable long-term care residents with dementia to effectively lead activities for other residents with dementia.
